Fun at the dentist

Sunday 25th Jan. 2009

Look out for our family days at the practice. The kids can come along & meet Donald Duck, play and watch DVD's and have Fun at the dentist.

LAUNCH Newsletter | December 2008

Keep it All clean

Did you know most people will lose their teeth through gum disease! To help combat this we offer a fantastic range of oral hygiene products. These products cannot be purchased in your local supermarket and are unique to the practice. Please ask any member of the team for help and advise on the correct product for you.
Let us help you to keep it all clean.

Something Different For Christmas

Santa could now bring your loved one that white smile they have always dreamt of... Available in multiples of £25, our Gift Vouchers can be purchased from reception.

0% Finance Available

To help you spread the cost of treatment and get the best treatment available.

Seasons Greetings

The good folk of Falkirk deserve a great smile.

And now its here, Falkirk Dental care, a brand new NHS funded Dental practice is open at 91 Grahams Road.

It comes as latest statistics show there is an aching void in the provision of state-funded oral healthcare in the region with one in three of the population not registered.

The plush dental surgery has been carefully redeveloped from the once residential sandstone building and transformed into a state of the art modern NHS dental practice.

Now if that doesn't put a smile on your face, nothing will.

Give us a call or email: register@falkirkdentalcare.com

01324 671 278
www.falkirkdentalcare.com

Open 8am 'til 8pm Mon. - Sat.

We believe that children should attend every 3 months for a check-up.

Quality Dental Care

NHS Dentistry

We offer the full range of NHS treatments to all our patients.

Many practices turn NHS patients away, but at Falkirk Dental Care we positively encourage NHS registration and have a refreshing new take on how you are cared for.

NHS dental treatment is free to patients who are:

- under 18
- aged 18 and in full time education
- receiving income support
- receiving pension credit guarantee
- receiving income based job seekers allowance
- entitled to or are named on a valid NHS tax credit exemption certificate
- pregnant or have had a baby in the last 12 months
- named on an NHS low income scheme HC2 certificate
- income related employment support allowance

The treatments not covered include: tooth whitening, dental implants, white inlays/onlays, white crowns on molar teeth and certain white fillings. See our 'Invest In Yourself' section for a summary of treatments we can provide.

WE ARE REGISTERING PATIENTS NOW

(Remember you do not have to live in Falkirk to be able to register)

About Falkirk Dental Care

A great team, a great environment and a range of treatments to suit everyone.

The plush two surgery building with its modern interior and child-friendly atmosphere is the brainchild of Dr. Atif Bashir and Dr. Michael Sockalingam.

Both dentists are familiar with the area. Michael's father has been a GP in nearby Cumbernauld for 30 years.

Dr. Bashir, a graduate of Glasgow University, whose wife Alison was born and brought up in Falkirk is acutely aware of how anxious people, particularly children, can be when visiting the dentist.

"Which is why we have concentrated on making the experience as pleasant as possible," he said.

The state of the art surgeries have televisions and kids' play areas as well as car parking and easy access.

Dr Bashir said: *"We welcome as many people as possible to come and see our facilities and meet our good-natured staff."*

FOCUS ON ... Dr. Martin MacEachen graduated in Glasgow in 2000. Martin lives in Edinburgh where he has been working since graduation. He has a special interest in implants and cosmetic dentistry.

Invest in Yourself

TOOTH WHITENING

A Whiter Brighter You.

A whiter, brighter smile is beautiful - it can help you feel better about yourself and make a memorable impression. At Falkirk Dental Care, we offer the latest tooth whitening systems.

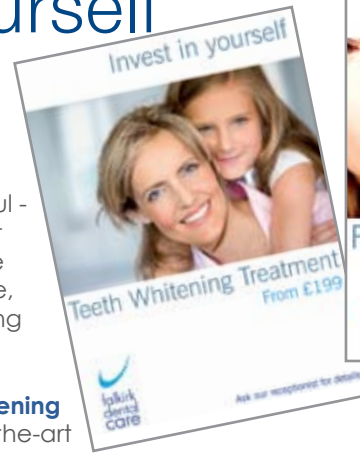

In-surgery Advanced Tooth Whitening

An effective yet gentle state-of-the-art system which lightens teeth by up to eight shades in just 45 minutes.

In addition to the in-surgery whitening we also offer professional home whitening kits, with custom made trays. From £199

Why not try Pola Paint?

Your dentist can supply you with this simple to use Paint-on that is great for recharging your already whitened teeth. No trays are required.

Cosmetic Dentistry

We can help you achieve that perfect smile with metal free crowns and white fillings.

Facial Rejuvenation

Contact the surgery for detail.

Dental Implants

Do you have missing or badly damaged teeth? Dental implants could be the ideal solution to give you back a winning smile and increase your confidence.

Accessibility

Private off-street parking is available at the rear of the building with direct ramp access for disabled patients or those with prams.
